

Dear Collages,

Greetings from the Faculty of Agriculture and Animal Science (FAAS) of the University of Muhammadiyah Malang (UMM), Indonesia. In 2024, the FAAS, UMM will organize a Summer Course in the Faculty of Agriculture and Animal Science (SCFAAS, the student exchange program) from October 16th to 24th.

The student exchange program "SCFAAS 2024" is a special opportunity for international students to gain new knowledge and learn Indonesian customs and culture. This will benefit participating students and help them have a better professional life. The student exchange program is not just about study. Still, it will also help students build integrative learning skills, multicultural competencies, practical knowledge, self-confidence, and lifelong friendships with people in different countries. This exchange program is eligible for both undergraduate students and graduate students. Students from partner universities/institutes can transfer the academic credit based on the consent of their home universities. Please be informed that registration and accommodation fees collected by the University will be waived for **quota students**, and all necessary materials will be provided. **I offer three (3) students from each department in UMM to receive this quota.**

Quota each department based on the speed of responding to this offer letter.

Our Departments are Agrotechnology, Agribusiness, Food Technology, Forestry, Animal Science, and Aquaculture. If more students are interested in this program, the extra students will have to pay 250 USD each.

Required Documents

1. Application form
2. A copy of the passport
3. A copy of your current student ID or a certificate of student status

Expenses

- Participants must purchase airline tickets to and from Surabaya and a ticket to Malang. FAAS-UMM will cover all other expenses, including accommodation, lunches, dinners, breakfasts, and local transportation for all participants in Malang.
- Participants are required to obtain an appropriate entry visa from the Indonesian Embassy before entering Indonesia, except for countries entitled to visa exemption and visa on arrival.
- Participants are advised to secure travel insurance that covers emergency services and sickness during their stay in Thailand.

Best regard,

Henik Sukorini, Ph.D. (Program facilitator)

Vice Dean for Academic Affairs,

Faculty of Agriculture and Animal Sciences,

University of Muhammadiyah Malang

Spend Your Summer at FAAS UMM.

Explore community programs and courses at Summer Course Faculty of Agriculture and Animal Science (SCFAAS).

Summer Course Faculty of Agriculture and Animal Science (SCFAAS) is an 8-day blended program that equips students with the Design Thinking mindset in a social innovation context. In this program, students enjoy out-of-textbook experiences such as learning a new language and undergoing a community homestay. Students also interact and build friendships with youths from overseas and gain a more profound understanding of the issues faced by agriculture communities.

SCFAAS students join the students of FAAS UMM to co-create purposeful, sustainable, and innovative prototype solutions to real-life issues. They develop an understanding of the issues agriculture communities face in the context of their social, economic, and political culture and analyze these issues from multiple perspectives.

Through this program, students can apply their teamwork and communication skills, develop a better understanding of themselves and empathy for the community, realize the positive impact they can make in the lives of an agriculture community in need, and attain higher resilience.

Date: 16th – 24th October 2024

Organizer: Faculty of Agriculture and Animal Science (FAAS), University of Muhammadiyah Malang (UMM)

Additional Information:

For quota, international students will be free of charge for the items below (18 students: 3 for each department, agrotechnology, animal science, fisheries, food technology, forestry, and agribusiness)

- Tuition fees.
- Lunches, welcome dinner, and farewell dinner.
- Travel expenses, field trip, and accommodation.
